For: DISPLAY APPARATUS HAVING IMPROVED HEAT DISSIPATION
CAPABILITIES

INFORMATION DISCLOSURE STATEMENT

Commissioner for Patents
P.O.Box 1450
Alexandria, VA 22313-1450

Sir:

In accordance with 37 C.F.R. §1.56, and §§1.97 and 1.98 as amended, Applicant cites, describes, and provides copies of the following art references:

OTHER DOCUMENTS:

- “*flange*”, Webster’s New World Dictionary of American English, Third College Edition 1998, p. 513.
- “*flange*”, Webster’s Third New International Dictionary unabridged 1986, p. 864.

DISCUSSION

Webster's New World Dictionary, third college edition 1998, discloses that the definition of "a flange" as a projecting rim or collar on a wheel, pipe, rail, etc., to hold it in place, give it strength, guide it, or attach it to something else.

Webster's Third New International Dictionary, unabridged 1986, discloses that the definition of "a flange" as 1): a spreading out (as of a vein of ore), 2 a): a projecting at right angles to provide strength or means of attachment to another part b): a projecting edge around the inside rim of a car or locomotive wheel to guide and keep it on the track c): the wide portion at the top and bottom of an I beam, channel, or plate girder d): a projecting edge, tuck, or insert of cloth used for decoration on clothing and 3): a foundry molder's tool for forming flanges .

The citation of the foregoing references is not intended to constitute an assertion that other or more relevant art does not exist. Accordingly, the Examiner is requested to make a wide-ranging and thorough search of the relevant art.

No fee is incurred by this Statement.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "R. E. Bushnell", is written over a horizontal line.

Robert E. Bushnell
